## Uniprotect impregnation

USI202

The breathable 2-phase impregnation with a pearling effect.

## DESCRIPTION

STEN SHOONMAKEN Uniprotect impregnation USI 202 is a **breathable 2-phase impregnation** for all types of **porous** or **absorbent mineral substrates**. The product is transparent and does not change the appearance. Self-organizing anti-adhesive components give the surface an **invisible, water-, and dirt-repellent effect**. Dirt gets less into the pores and is easier to clean.

## AREAS OF APPLICATION

For **interior** and **exterior use** on all absorbent, open-pored substrates made of **stone, natural stone, concrete** or **cement**.

## USAGE

**Apply** the product **undiluted** to the **completely cleaned surface**. The impregnation can be applied with suitable tools such as **cotton strip, rollers or sprayer**. Make absolutely sure that the product is evenly distributed on the surface. With 5 liters you protect approx. 40-60 m<sup>2</sup> surface. After impregnation, the surface should not be walked on for 5 to 8 hours.

## ECOLOGY

The product **does not contain solvents** and biocide and is **non-toxic**.

# PRODUCT INFORMATION SHEET

Creates pure conditions

## NOTICE

With 5 liters of the product will an area of about 40-60 m<sup>2</sup> will be protected.

If the product gets on plants, we recommend watering the plants well. The agent is based on water and is not dangerous for plants or lawns.

The product can be used on marble. Be careful with polished surfaces. Always make a small sample in a place not easily visible.

Pets should be kept away during the impregnation process. Once the impregnation is finished and the surface is dry there is no danger to your pets.

Keep out of the hands of children.

Read label and product information before use.

## INGREDIENTS

**Contains:** non-ionic surfactants; 1-3% triethoxyoctylsilane
